

The 25-Point AI Automation Checklist

Spot the highest-ROI AI automation opportunities across your business.

Tick any task that your team repeats more than once a week. Every tick is a candidate for automation.

■ Marketing Automation

- Auto-reply instantly to every form, chat, and email lead
- Auto-tag new leads by source and lead score in your CRM
- Schedule a week of social posts from one calendar
- Send abandoned-cart and re-engagement email sequences
- Generate weekly marketing performance reports automatically
- Personalize email sequences based on subscriber behavior
- Auto-sync leads between your forms, CRM, and email tool

■ Sales & CRM Automation

- Log every call and meeting to your CRM automatically
- Draft follow-up emails with AI, review, then send
- Auto-assign incoming leads to the right salesperson
- Send quotes and proposals the moment a prospect asks
- Follow up automatically with prospects who go quiet
- Sync invoicing and billing with newly closed deals
- Update deal stages and pipeline metrics automatically

■ Operations Automation

- Route support tickets to the right person instantly
- Answer common questions with an AI support assistant
- Sync new customers into billing and onboarding tools
- Generate and file contracts and agreements automatically
- Send payment reminders before invoices become overdue
- Create tasks automatically from meeting notes
- Stop copy-pasting data between apps - connect them with n8n
- Back up critical data and files automatically
- Send daily and weekly company health summaries
- Onboard new hires with an automated checklist
- Get alerted automatically when a workflow fails
