

OPERATIONS AUDIT — 25 CHECKS

The 25-Point AI Automation Checklist

Spot the highest-ROI automation opportunities hiding across your marketing, sales, and operations — before they cost you another week.

THE RULE Tick any task your team repeats **more than once a week**. Every tick is a candidate for automation.

01-07

Marketing Automation

// SCORE YOUR RESULT **How many did you tick?****1-8****Foundational gaps**

A few quick wins are sitting right there — start with the tasks costing the most hours per week.

9-17**Leaking hours weekly**

Manual work is spread across your stack. A connected workflow would give this week back.

18-25**Automation-ready**

You're close to a fully connected system. An audit can map the fastest path to get there.
